

Connecting for Health is an NHS organisation that makes a genuine difference. We provide the computer systems and services that link GPs and community services to hospitals. In everything we do, we always put the patient first which makes working with us an incredibly rewarding experience.

Clinical Director for Clinical Content and Requirements

In the Clinical Director role, you will shape the clinical assurance of content and requirements to ensure applications are able to support high quality professional practice. You will be responsible for shaping the strategy to prioritise the development and assurance of national clinical content to meet Programme demands as they evolve following the recommendations of the NHS Informatics Review.

Clinical Lead for Clinical Content Assurance

In the Clinical Lead role, you will be responsible for providing clinical leadership and direction to the Clinical Content Assurance workstream, engaging with clinical groups and professional/patient bodies, to ensure good understanding and commitment to the adoption of agreed standards of care in order to minimise clinical risk

For both of the above challenging and complex roles you will have proven experience of working with a diverse range of personalities and will demonstrate that you have the personal drive and resilience to succeed in a highly pressured environment. You will be encouraged to continue in professional practice; the proportion of time dedicated to the role is negotiable.

Both roles are on a 2 year secondments, 3 days a week and terms and conditions based on current experience. Regular national travel is required.

For an informal discussion please contact Dr Mark Davies on 07787 527583.

Closing date for both posts: Friday, 14th November 2008.

National Clinical Leads

Secondments up to 3 days a week

Terms and conditions, dependant upon experience.

NHS Connecting for Health (CFH) is seeking to appoint several National Clinical Leads to act as advocates for the NHS in the National Programme in the following areas:-

- Hospital Doctor
- Mental Health Nurse
- Allied Health Professional
- Health Care Scientist
- Nursing

This will involve building and maintaining strong networks, providing clinical and IT professionals with advice and guidance to enable them to deliver their own responsibilities for communication and engagement.

In terms of background, you will be a qualified healthcare professional with a sound understanding of issues relating to an electronic patient record, including staff engagement and changes in working practices. Just as important will be your ability to identify service and healthcare implications of different technical solutions.

A natural problem solver and skilled communicator, you will be able to build credibility and influence others, at all levels.

The posts will be offered as two-year secondments and will involve home working, national travel and meetings centred in London.

For an informal discussion please contact indicated individuals shown below.

Hospital Doctor, Contact Dr Robert Pitcher on 07780 963319

Mental Health Nurse, Contact Dr Joe McDonald joe.mcdonald@nhs.net

Allied Health Professional, Contact Yvonne Pettigrew on 07879 695741

Health Care Scientist, Contact Yvonne Pettigrew on 07879 695741

Nursing, Contact Ms Julie Tindale on 07768 336033.

Closing date: Thursday, 31st October 2008.
