

“Promoting Radiography... Representing Radiographers”

Equalities Study Day

Wednesday 23rd September 2009 10.15am to 3.15pm

Society of Radiographers HQ London

Equalise are pleased to be organising the first of a series of study days for society reps, members and managers on issues around equality and diversity. As a rep this event will provide you the opportunity to increase your knowledge allowing you to offer advice to members on up to date issues. As a member it will allow you to meet the members of Equalise who are working on behalf of all under represented groups within the organisation. As a manager it will provide you with information on how and what you can do to support your staff and ensure that discrimination does not occur in your department.

The event is free of charge to all Society members and will be endorsed by CPD Now. Lunch will be provided. Places will be limited to 40. Please can you ensure you have obtained release before committing to the event? If you are an accredited representative you are entitled to time off to attend training provided by the society under your trust's facility agreement.

Please let Richard Pembridge richardp@sor.org know should you have a problem with release from work.
